GRADE REPORTING SYSTEM

overview

Produce progress reports, report cards, and transcripts by importing from the Grade Book System or by using the Edit Report Card option. A full-sized report card, complete with parent name and address to facilitate mailing. Daily Attendance or class cut information is automatically transferred into this system to be printed on final reports.

Grade Reporting accommodates letter grades, number grades or custom grades (i.e. WD pass or WD fail). Users can define GPAs, track weighting, and Honor Rolls. Free-form comments may be entered, and a master list of teacher comments can be created for use on student progress reports and report cards.
